LEAD ABATEMENT ACTIVITIES TRAINING PROVIDERS

Listed below are the names of approved Lead-Based Paint training providers from which the Health Hazards Control Unit (HHCU) regularly receives certificates for certification purposes. Additionally, the HHCU has limited reciprocity agreements with the Alabama, Georgia and Mississippi lead-based paint programs and may accept training for certification from those training providers accredited by Alabama, Georgia or Mississippi's state authorized programs. Because reciprocity agreements are subject to change, it is strongly recommended that you contact the HHCU **before** taking training from any source not included on the North Carolina list below. This will ensure the training is acceptable for North Carolina certification.

If you have any questions regarding the current status of any training course or training provider on North Carolina's list or for more information regarding North Carolina's Lead-Based Paint Hazard Management Program, please contact the Health Hazards Control Unit at (919) 707-5950 or visit our website at: <https://epi.dph.ncdhhs.gov/lead/lhmp.html>

TRAINING PROVIDERS		DISCIPLINE	TYPE
